

ANNUAL TECHNICAL SESSION FOR THE AUSTIN HEALEY , TYEE TRIUMPH and MG NORTHWEST CLUBS

It's almost Spring, and that means time for the annual get-together of British car enthusiasts!

Remember last year we changed it up a bit and held it at Shoreline Community College in the Auto Tech building. That sure worked out well, so we are going to repeat that again this year. So on Saturday March 10 we will all gather at Shoreline Community College building 2100. Be prepared to spend 2 hours talking about what we love so much, British Cars!

Steve and Christopher Day from British Car Ranch in Wenatchee will be presenting the inside information on how to wake up your British Car after a winter's long nap, or maybe a 10 year nap! There is a lot to consider in starting a car after a long period of storage, and Steve and Christopher will cover each step in detail, showing us how to get back on the road and have the best chance to have a fun season of driving.....without interruptions! This will be information that applies to all 3 British Marques, Austin Healey, Triumph and MGB. And if you prefer to have a professional do the work, they will have a check list you can take home and use to guide your mechanic when he/she does the work. As always, there will be plenty of time reserved in the session for you to ask your specific question about your baby and get it answered. Steve says that the most important part of any session he does is making time for you to ask your specific question about your Baby, and be able to get an answer, so you can count on that being available to you.

This year the MG Club of the Northwest has asked to be included and the total seating available is 60. We will divide that up so that each club can have 20 members present. With that plan in place, it will be important to contact Frank Hosick at sidea@hosick.net ... and reserve your spot, NOW!

The session will start at 10am, with doors open at 9:30am. Join us for an informative and always entertaining session
